Harbour Authority of Deer Island

WORKING TOGETHER TO PROTECT OUR MARINE ENVIRONMENT

WASTE OIL BUILDING RULES OF OPERATION

WASTE OIL COLLECTION AND CLEANUPS ARE PAID FOR FROM YOUR USER FEES

- All waste oil to be deposited at designated tank inside building.
- Keep tank free of all products except waste oil. Do not place fuel, antifreeze, paint, solvents or other contaminants in waste oil tank. (This is not only dangerous but increases the cost of collection and disposal to your Harbour Authority.)
- Properly drain used filters in the waste oil tank before placing in marked barrels (drained filters must be collected and recycled).
- Oil containers should be well drained, cap tightly fastened and placed in marked barrels.
- All oily rags, single socks and other oily absorbents to be placed in marked barrels.
- Keep marked barrels free of waste oil by properly draining filters and containers prior to placing into designated barrels (disposal contractor will not pick up or will charge more to empty barrels that have waste oil in them).
- Keep building and surrounding area clean and tidy.
- Report any spill, leaks or improper disposal practices to your Harbour Authority or a Director at your Harbour Authority Board.
- Call 1-800-565-1833 if fuel, waste oil, chemical or other contaminants spill cannot be contained or quickly cleaned up.

BY FOLLOWING THE ABOVE RULES YOU CAN HELP YOUR HARBOUR AUTHORITY SAVE MONEY AND PROTECT THE ENVIRONMENT

IMPORTANT FACTS
One litre of oil can contaminate 1 million litres of groundwater. Harbour Dredging Issues: There is an increasing probability that it will be impossible to find a disposal site if contaminants build beyond regulatory limits. (No Dredging)

Air Brush MADNESS

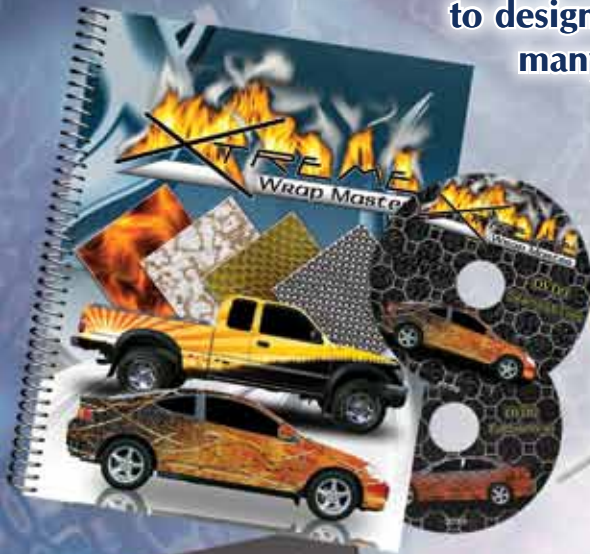

AIR BRUSH MADNESS is the latest craze to hit both the apparel and sign industry. Collection 1 focuses on images such as skulls, animals and people. Collection 2 is more dedicated to business type images such as mechanics, firefighters, singers, beauty images, sports images, pizzeria chef, just to name a few. These images are a dream come true for any designer, with high resolution transparent background .PSD files design is as easy as a click and drag on to your workspace. Each image comes in two file sizes – 10 MB for apparel and smaller items such as skateboards, and 100 MB for large format printing. Each collection comes with a full color 8.5" x 11" reference catalogue along with Bonus images from Wrap Master 3.

X TREME Wrap Master

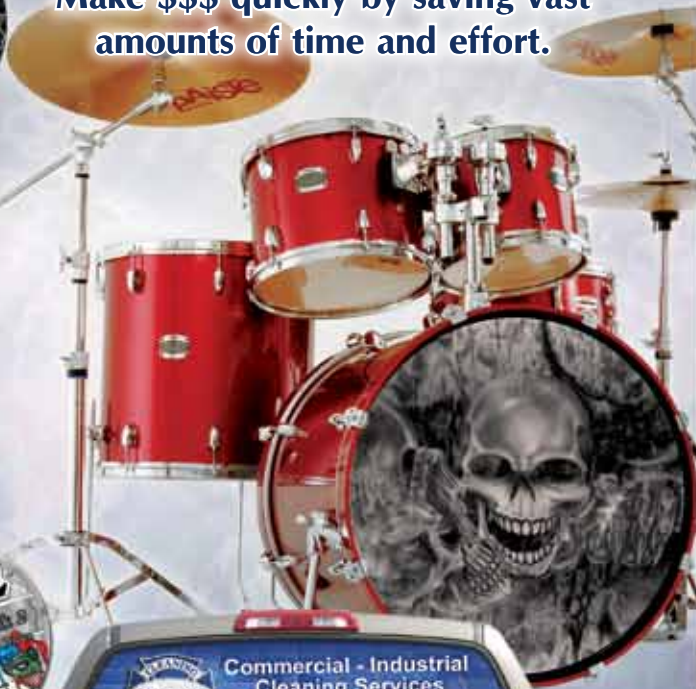

The WRAP MASTER series of collections 1,2 & now 3 have a combined image count of over 1600 HQ seamless tiles, wrap/sign backgrounds and murals. Yes, you may be able to design your own backgrounds, but with this many to choose from - WHY WOULD YOU WASTE YOUR TIME?

Each collection comes with 2 DVDs and a 8.5"x11" reference catalogue. Make \$\$\$ quickly by saving vast amounts of time and effort.
